ABOUT

Daniel Heath is a British award winning independent wallpaper, textile and surface designer renowned for his illustrative and engaging designs. Based in the heart of East London, the designer-maker has long upheld principles of craftsmanship and sustainable design through up-cycling and re-appropriation of authentic heritage materials. Trained in the traditional process of silk-screen printing at the Royal College of Art, he set up his studio in 2007 to make bespoke, hand printed wallpapers and crafted interior surfaces exclusively made to order. Drawing has always underpinned his surface pattern designs, and many have references to a time or a place to form playful narratives.

Daniel Heath Studio has evolved over 10 years by creating bespoke surface solutions that employ contemporary processes to re-adorn heritage materials using Daniel's hand-drawn designs, for a raft of international clients. These include: Panasonic Europe, Swoon Editions, Stella McCartney, Athropolgie, The Design Museum London, Retrouvius Architects as well as numerous private clients.

The result is a contemporary refined collection of interior surfaces, textiles and furniture that are not only beautifully made, but compassionately manufactured.
